Residential Program for Women and Children

Meeting The Need

Offering a long term, residential program for women struggling with life controlling issues is vital in the re-habilitation and restoration of women.

In response to the needs of women, New Life over 30 years ago developed a comprehensive, unique program to include single women, women who are pregnant and women along with their children.

Help Along The Way

To continue our work, we depend on the gifts from friends who share our call to help others.

We receive no state or federal funding. All of our support comes through individuals, churches, foundations and corporations who make this home possible.

How can you help?

By becoming a monthly partner supporting New Life Home on a monthly basis or by your one-time-gift. Your generosity allows women and their children the opportunity to find a "new life".

All of these services are offered at no cost to our participants.

You Can Make A Difference

There are hundreds and thousands of women and children who need help and hope. You can have a part in helping to keep the doors of this home open to those who are desperately hurting.

The Results
